W. L. DOUGLAS MAKES AND SELLS MORE MEN'S \$3.50 SHOES THAN ANY OTHER MANUFACTURER IN THE WORLD.

1)\$3.50 SHOES

The reason W.L. Douglas \$3.50 shoes are worn by more men in all walks of life than any other make is because I give the wearer the benefit of the most complete organization of skilled shoemakers in this country, who receive the highest wages paid in the shoe industry and whose workmanship cannot be ex-

The selection of the leathers and other materials for each part of the shoe and every detail of the making is looked after by specially trained experts in every department.

If I could take you into my large factories at Breckton, Mass., and show you how carefully W. L. Douglas \$3.50 shoes are made, you would then understand why they hold their shape, fit better, wear longer, and are of greater value than

any other make. W. L. DOUGLAS \$4.00 GILT EDGE SHOE.

Even with our doors wide open, some men still hesitate to buy a raincoat because they've seen so many shabby "cravenettes."

For there's a wide-spread idea that cravenette is a cloth, whereas it is a process.

There's just as much difference between our cravenetted raincoats of fine fast color woolens and the cheap "cra-venettes" as with any other sort of garment.

Indeed there's more difference in the end, for a raincoat is always subjected to service which speedily wrecks anything but the most substantial fabric.

Public notice is hereby gives that at a meeting of the Board of Estimate and Apportionment, held September 18, 1898, the following petition was received:

TO THE HONORABLE THE BOARD OF ESTIMATE AND APPORTIONMENT.

The petition of the Third Avenue Railroad Company respectfully shows, on information and belief, as follows:

First: That your petitioner is a street surface railroad company, organized and existing under the laws of the State of New York, having filed its Articles of Association in the office of the Secretary of State on the 8th day of October 1888, and for many years has owned and operated a double track street surface railroad for the carriage of passengers in the Borough of Manhstan City along Park Row, Bowery, and Third Avenue to the Hariem River; along One Hundred and Twenty-fifth Street and Manhattan Street, from East River to North River, and from One Hundred and Twenty-fifth Street, along Amsterdam Avenue to the northerly terminus thereof at Fort George, at or near the intersection of Fort George Avenue, using the underground system of electrical traction as motive power.

Second: That the City of New York is now constructing two bridges and approaches in sald City, the first known as the Manhattan Bridge which extends from the Bowery at or near class Street, in Manhattan Borough, along a viaduct approach, in sald Borough, to and across the East River by bridge, and thence along a viaduct approach, in and Bridge, which extends from Seth Street and Second Avenue in the Borough of Manhattan Bridge, which extends from Seth Street and Second Avenue in the Borough of Manhattan Bridge, which extends from Seth Street and Second Avenue in the Borough of Manhattan Bridge, which extends from Seth Street and Second Avenue in the Borough of Manhattan Bridge, and thence along a viaduct or approach to and seroes the East River and Blackwell's Island by bridge, and thence along a viaduct or approach in the Borough of Gueens to Jackson Avenue Long Island City. Each of

with appropriate terminals.

Third: That your petitioner, for the convenience of public travel, proposes to extend its raticad to and upon each of said bridges and the approaches thereto by the construction and operation of separate branches or extensions by a underground current of electricity upon the following described routes:

(a) Beginning at the double track road on the Bowery, at or near Canal Strees, in the Borough of Manhattan, owned by the petitioner and connecting therewith; running thence easterly with double tracks in, upon and along the westerly approach to said bridge in the Borough of Manhattan Bridge, and thence in, upon and along the easterly approach to said bridge, and thence in, upon and along the easterly approach to said bridge, in the Borough of Brooklyn, to the terminal plaza at or near Sands Street, in said Borough. The total length thereof is Sixty-five Hundred feet.

(b) Beginning at the double track road on Third Avenue at the intersection of Flity-eighth Street, Borough of Manhattan, owned by the petitioner, and connecting therewith; running thence easterly with a single track in, upon and along Flity-eighth Street to Second Avenue thence northerly in, upon and along Second Avenue to a point of connection with the tracks on Blackwell's Island Bridge, and its approach, at or near Flity-ninth Street and northerly thereof; thence with double tracks casterly in, upon and along the westerly bridge approach, thence upon, over, serous and slong said bridge; thence in, upon and along the westerly bridge approach, thence upon, over, serous and slong said bridge; thence in, upon and along the westerly bridge approach, in the Borough. And also, beginning at the petitioner's double tracks on said Blackwell's island Bridge, and its westerly approach, in this paragraph described. The total length thereof is Ninety-etx Hundred feet.

Fourth: Your petitioner is advised that seprace to, along and across Second Avenue to a point of connection with the double tracks on said Blackwell's island Bridge
